

Smoke Tests

Monday, February 20, 2023 8:00 AM

To improve the quality of each release, there is a suite of tests that can be run as a whole or selectively to demonstrate that the changes within a release are working as intended and have not disrupted existing behaviors.

See the smoke test notebook...

Smoke tests are maintained in a separate notebook in the [OneMore repo here](#), but also shared as a read-only notebook online.

Click here to see the [OneMore Smoke Tests](#) notebook online.
